## Product highlights:

### 1) Removing the guesswork from ironing

Simply select your fabric, and the iron does the rest. By combining the ideal level of steam and heat, you never have to worry about whether or not you can iron delicate fabrics.

### 2) Water resistance restored with Outdoor Care

Treat your favourite outdoor wear to precise temperature care. It re-activates water-repellency to keep you dryer for longer.\*

### 3) The headlight shows the way

The always-on headlight illuminates creases for more efficient ironing performance. Never miss another wrinkle.

### 4) Dual clean function

Our Water Softener System combines an unique Soft Water Activator and a FlushClean function that keeps steam clean and soft, prolonging the product lifetime.

### 5) Splash-free water filling

Avoid spilling water all over by filling the 370ml water tank from the back in a funnel.

### 6) Steam iron your way

Enjoy smooth steam ironing with the scratch-resistant RESILIUM™ Ski 500 soleplate. It evenly distributes steam for smoother ironing in all directions.

0-45g/min steam	Steam on demand with a lock function	220-240V, 50/60Hz
220g steam shot	Hot soleplate indicator	2300 W

\*Better for water-repellent garments than air drying only.
